ROLE OF MINERALS IN OUR BODY

AS THE SOIL BECOMES DEPLETED,

THE SEA BECOMES MINERALLY ENRICHED

Our philosophy at Keva Industries has always been that the Earth was created with perfect balance of all the nutrients that humans need to be healthy and happy. The only problem is that over the years humans have become victims of the water cycle. Dr. U. Aswathanarayana states, "Soil erosion leads to the depletion of essential nutrient elements in crops grown in depleted soils. When people consume a diet derived from such crops, the intake of essential elements becomes inadequate. This leads to the impairment of the relevant physiological functions, and causes disease."

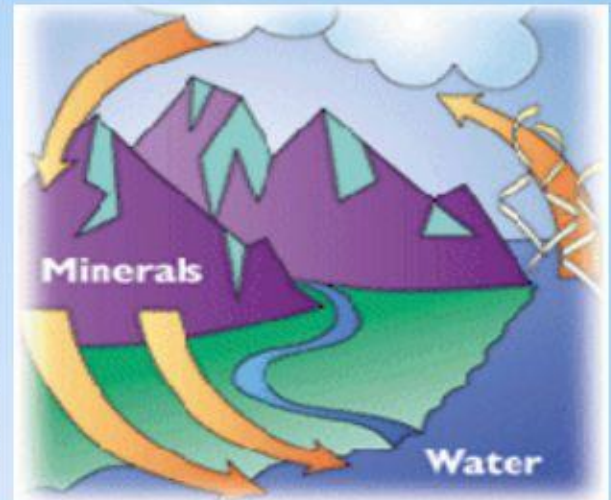

Because your body requires nearly two thirds of all the elements currently known to man in order to maintain health, keeping these minerals in balance is a complex yet incredibly vital task. The events of everyday demand a continual ingestion of minerals. Perhaps that is why an estimated 90% people suffer a mineral deficiency or imbalance.

For millions of years, every sprouting seed and towering tree has dissolved minerals in ionic form and raised them from the depths of the soil where they could easily be washed away by water. To add to this problem, aggressive farming has further depleted the soils. Furthermore, many fertilizers and pesticides bind trace minerals in the soil so that fewer minerals are absorbed by fruits and vegetables. The importance of minerals in the soil and their effects on human health are not new concepts. Dr. Alexis Carrel, Winner of the Nobel Prize in Medicine in 1912, states, "Soil is the basis of all human life and our only hope for a healthy world.... All of life will be either healthy or unhealthy according to the fertility of the soil. Minerals in the soil control the metabolism of cells in plant, animal and man.... Diseases are created chiefly by destroying the harmony reigning among mineral substances present in infinitesimal amounts in air, water and food, but most importantly in the soil." Even the American Medical Association recognizes the importance of minerals in our diet. "Variations in the distribution of certain minerals in the environment are known to have an effect on health."

The lack of minerals in our soil is evidenced through the need for constant fertilization. Plants need nitrogen, hydrogen, oxygen, chlorine, carbon, boron, sulfur, potassium, magnesium, phosphorous, iron, zinc, copper, manganese, and molybdenum, some of which are commonly replaced through fertilizers to provide maximum crops through minimum investment. However, humans are known to additionally need calcium, sodium, fluorine, bromine, chromium, iodine, silicon, selenium, beryllium, lithium, cobalt, vanadium and nickel, which would not necessarily be replaced through fertilization for plants.

This continual cycle of soil depletion and minor replacement of minerals through fertilization in conjunction with a diet of processed foods has left many deficient in minerals and trace minerals. This does not need to be the case. To discover where the minerals have disappeared, we need to follow the water cycle. As water goes through the constant cycle from evaporation to precipitation, minerals are transported through rivers and streams where it is then collected in the seas thereby creating a natural equilibrium.

Today, Keva Industries harvests minerals and trace minerals from the 250 million year old virgin seabed 2 miles down the earth's crust in Europe. These minerals are the basis for each of the Keva Ancient Mineral Drops and help in providing a strong foundation for balanced supplementation.

Doctors worldwide have stressed on the Need of Trace Minerals for human body:

Dr. Joel D. Wallach, M.S., D.V.M. (University of Missouri) and N.D. (National College of Naturopathic Medicine) 'All diseases are due to mineral deficiencies. You must give your body all the minerals it requires to maintain and renew itself in order to achieve healthful maximum potential. But those minerals so vital to your health can be hard to find. Centuries of mining, farming, irrigation, and acid rain have eroded life-giving minerals from our soil. These mineral-deficient soils are then used to grow and cultivate our food. Because of this, our food may be lacking in essential minerals

According to **Dr. Micheal A. Brodsky** M.D., associate professor of medicine at the University of Medicine and the director of the Cardiac Arrhythmia Service at the University of California, 'Mineral imbalances interfere with the heart's normal nerve function.'

2 times Nobel Prize winner **Dr. Linus Pauling** went so far as to state unequivocally "You can trace every sickness, every disease, and every ailment to a mineral deficiency."

"Your mineral needs are even more important than your vitamin needs since the human body cannot make minerals."

Dr. Henry Schroeder, MD, Ph.D. Dartmouth College, USA

"Scientific study has shown minerals are absolutely essential to life on this planet"

Dr. Alexander Schouss, Ph.D. Natural and Medicinal Products Research, AIBMR Life Sciences, Washington

Arthritis:

I am 40 years old working woman. During my daily working activities I suddenly started feeling pain in hands, legs. This pain disturbed me all the day. I was feeling so weak and found myself unable to walk. Then I consulted my physician & he told me about arthritis which we often heard about. Then I started doing regular exercises and took proper medicines. Then one of my colleagues suggested me to use KAMD and I got such a relief from pain in hardly 10-12 days. I feel myself full of energy.

Back Pain

Due to some abdominal disorders I developed back pain 3 years ago. I was suffering from severe pain in my back and pain became so worse while doing any physical activity. I started feeling numbness and weakness in the part of legs. One day I heard about KAMD from one of my relative, who was also suffering from that disease. And she told me about effectiveness of this product. I too started taking this supplement, and within 5-6 weeks my pain was completely cured. I am really thankful to KAMD!!

Kantayini Patel (Age-39 Yrs) (Botad, Gujarat)

Dengue Fever

My wife had dengue last month. It was a very serious situation for her as her platelet count had dropped to 28,000 after 3 days in hospital and water had started to fill up her lung. She had difficulty in breathing. She is only 32-years old. Doctor says there's no cure for dengue. We just have to wait for her body immune system to build up resistance against dengue and fight its own battle. She already had 2 blood transfusion and all of us were praying very hard as her platelet continued to drop since the first day she was admitted. One day I got to know about KAMD & started giving her on daily basis. She started improving in just 2 days. Amazing but it's true. Thanks

Joints Pain:

I was suffering from severe joints pain for the last 5 years. It was getting harder to sit and walk as time passed. I took so many treatments. Also did physical exercise, taking care of my posture when I was sitting, but I felt little improvement. When I discussed my problem with my sister in law, she suggested me to use KAMD. And with its regular usage, I got much relaxed. This product changed my life fully.

I am sharing my father's experience with you. He was recurring kidney stone patient. He was having a hard time with the pain he was having in his right side and blood in his urine. He had Lithotripsy, but that did nothing. That really disturbed us and didn't know what to do. Then my family friend suggested me KAMD. And believe me in a very short period my father has started recovering from the miserable situation. The problem has diminished substantially!

Being an epileptic patient, my life was totally full of darkness. As all you know that patients with epilepsy mostly have cognitive impairments which effect attention, memory, mental speed and language as well as professional and social life, I was completely dependent on anti-epileptic medicines for 6 years. After using KAMD in 2-3 months I felt tremendous improvement in my condition. Now I am regularly taking KAMD with my medicines. My doctor has already reduced the drugs quantity that I was having for so many years. That was all because of KAMD!

Skin Acne

My daughter was dealing with this problem. I don't know whether this disease was because of some kind of allergy or hormonal imbalance. She was given some ayurvedic treatments, but they did not give her permanent relief from this acne problem. She had pretty bad acne. Very red and big Acne made her skin look so ugly. She was losing her self-confidence and started avoiding people. She was very depressed as we tried so many treatments but were of no use. Then one day her friend advised her to use KAMD then she started applying KAMD on regular basis. And it was really surprising that her problem completely disappeared in just 15 days. She is now very happy with her skin and is enjoying healthy life.

Heart Palpitations

I am 53 years old engineer. Some time back I began to have an irregular heart beat and palpitations. I saw my family medical doctor and then a cardiologist. They performed many tests and even 24-hour heart monitor test, but could not find the cause of her problem. The palpitations came every two hours and would last for up to 30 minutes at a time. They were worse when I lay down and became severe when I tried to lie on my left side. After my examination and treatment I was given Keva Ancient Mineral Drops to try by doctor. That night I slept great and did not have any palpitations. I have been taking the Keva Ancient Mineral Drops for 45 days and it has only had one day when I had any palpitations or irregular heartbeats. Thanks!

Insomnia

Keva Ancient Mineral Drops was introduced to me approximately 10 months ago. I began to use it for insomnia and as a supplement to increase my energy level. It seems a contradiction that energy levels could be increased at the same time insomnia addressed, but this has been my experience using Keva Ancient Mineral Drops. Now I can sleep for 7-8 hours.

We Have Very Structured Method of Working

Neurological Disorders & Muscle spasms

I have been on a medication for severe muscle spasms. I have also been prescribed a medication used for neurological disorders. My doctors were puzzled with what is going on with me. The spinal and brain doctor were trying to determine if these cluster seizures are spinal or neurological. These spasms are most frequently small in number throughout the day, yet very discomforting. I have tried numerous naturopathic protocols, none of which seemed to solve the discomfort, while the spasms continued to worsen in both intensity and occurrence. Then I come to know about Keva Ancient Mineral Drops, within two days of taking it and with its application on my body, the spasms subsided! Within a short period of a couple of weeks I am a different person.

Skin Problems, Skin Disorders

I have troublesome skin; it's often sensitive, looks dull and reacts badly to most of the products, even organic at times. I started using Keva Ancient Mineral Drops a few days after receiving it and noticed very quickly that the unsightly dry skin I had on my hand's knuckles was fading. I have always been very conscious of the way my hands look; so can't tell you how pleased I was when these drops shown results. My hands feel less sore, they look better and feel really supple and that is a rarity for me, so I'm delighted. I have also been using it on other problem areas I have and found it so gently effective on my skin and also consuming its few drops for quick result.

Stress & Hyperactivity

I just purchased your product today from my chiropractor. About 5 hours ago I took few drops of it and had an incredibly good reaction. I felt so relaxed yet amazingly alert and clearheaded. I had been suffering from pretty tough stress at work, had the beginnings of elevated blood pressure, frequent headaches and was starting to get depressed. Just a short while after taking the product I felt so soothe and relieved that I had to write you and tell you. I have tried several different natural products for stress and depression but I never had such a strong positive reaction from any product. This stuff is great!
