Triple
Stemcell
Powder

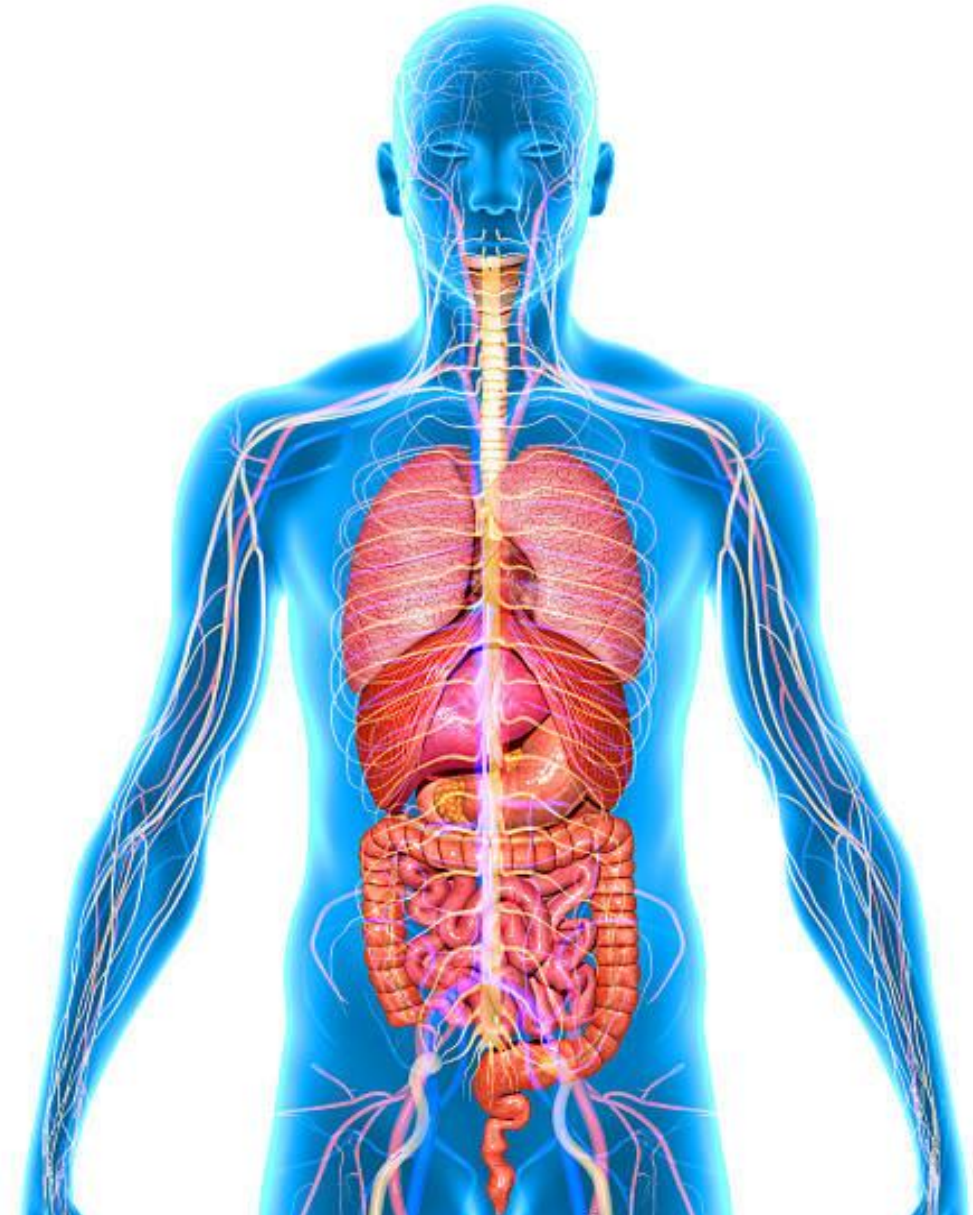

AGING CELLS

Most of the cells in our body lose function with age. Everyone has special cells called adult stem cells which are needed to rejuvenate damaged and old tissues, but adult stem cells themselves are also aging.

AGING ORGANS

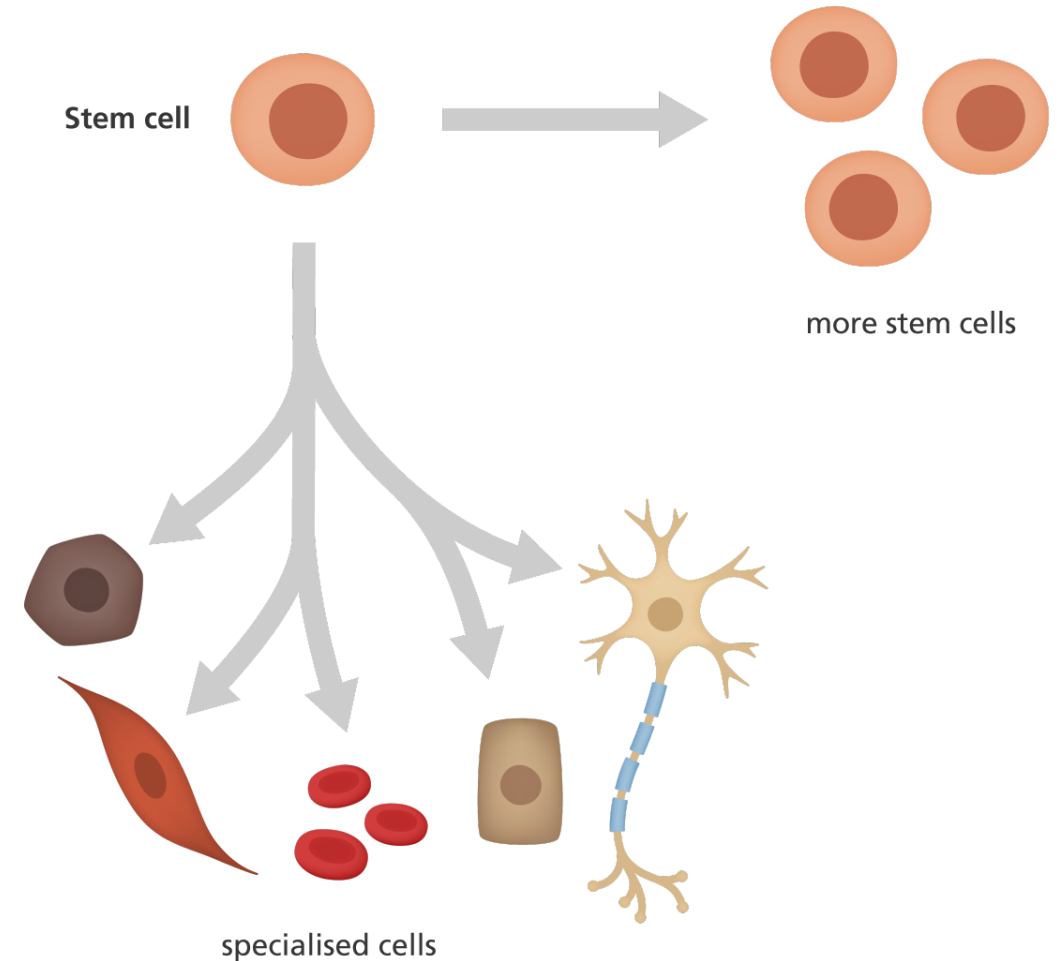

How well organs function depends on how well the cells within them function. Older cells function less well. Also, in some organs, cells die and are not replaced, so the number of cells decreases. The number of cells in the testes, ovaries, liver, and kidneys decreases markedly as the body ages. When the number of cells becomes too low, an organ cannot function normally. Thus, most organs function less well as people age.

STEM CELLS

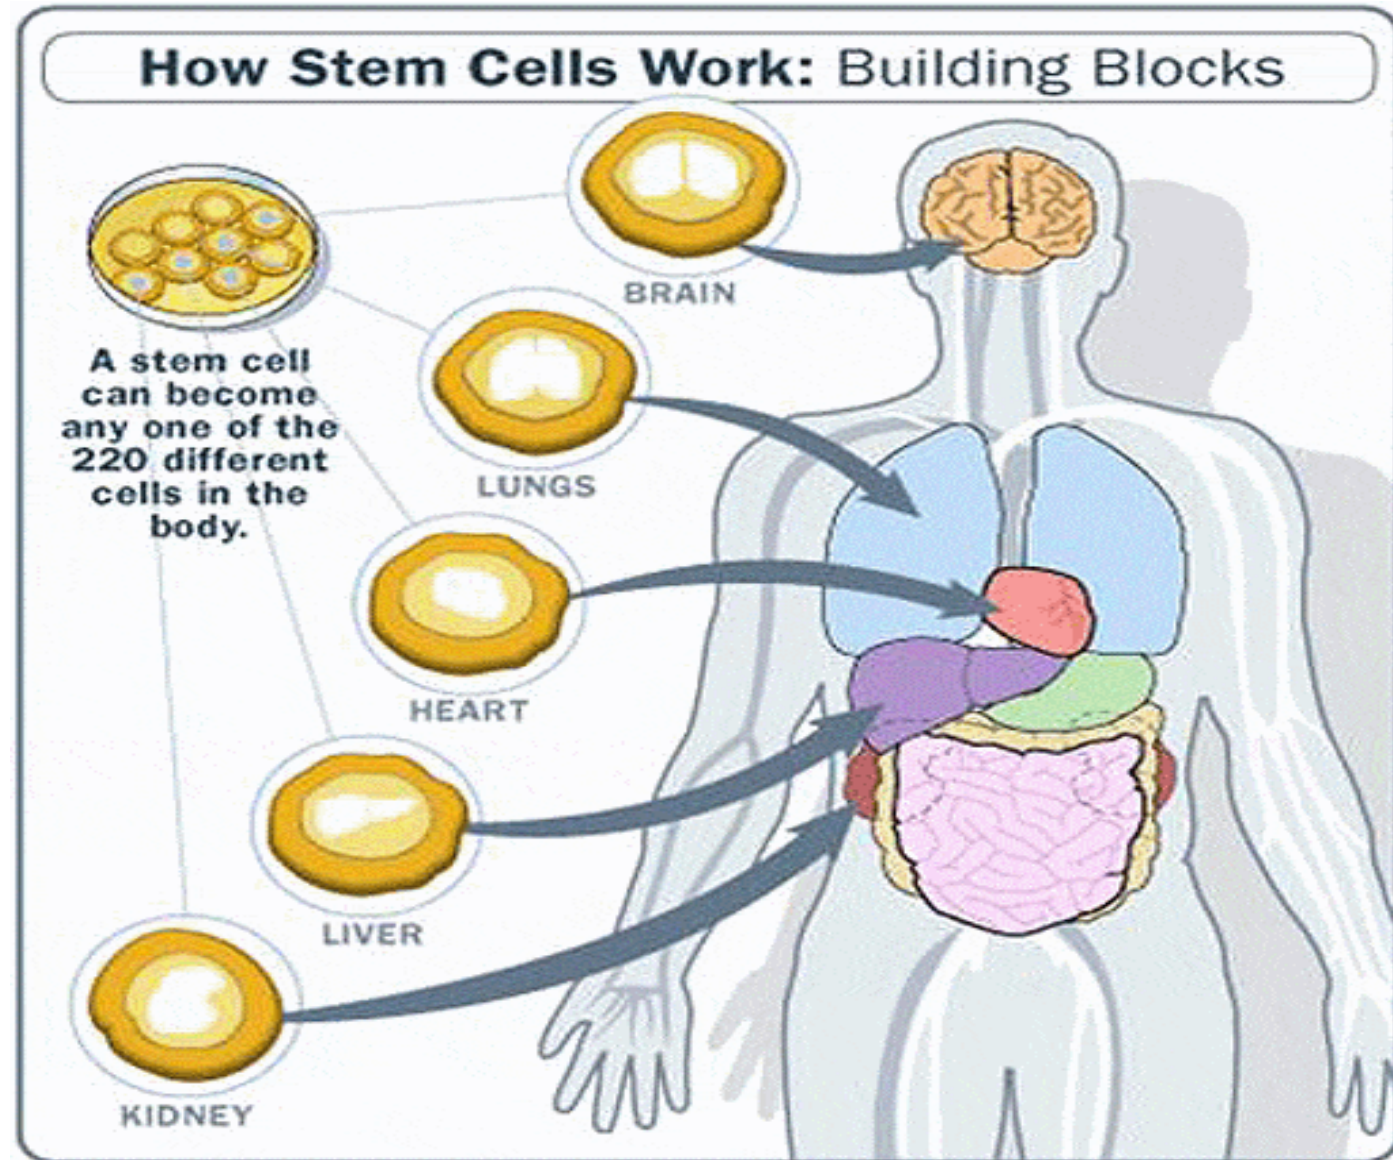

Stem cells provide new cells for the body as it grows, and replace specialised cells that are damaged or lost. They have two unique properties that enable them to do this:

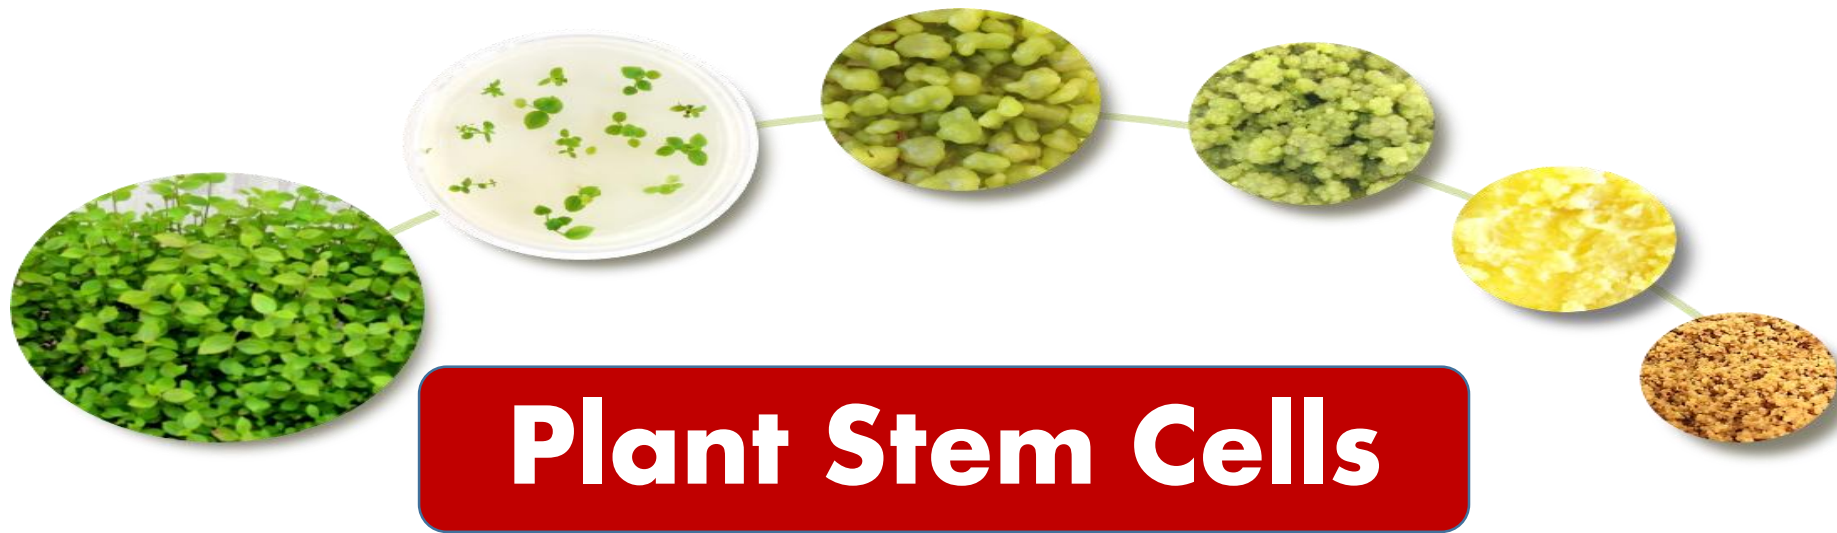

- **They can divide over and over again to produce new cells.**
- **As they divide, they can change into the other types of cell that make up the body.**

STEM CELLS

Stem cells are building blocks that play important roles in cellular renewal and regeneration, but they become less potent over time

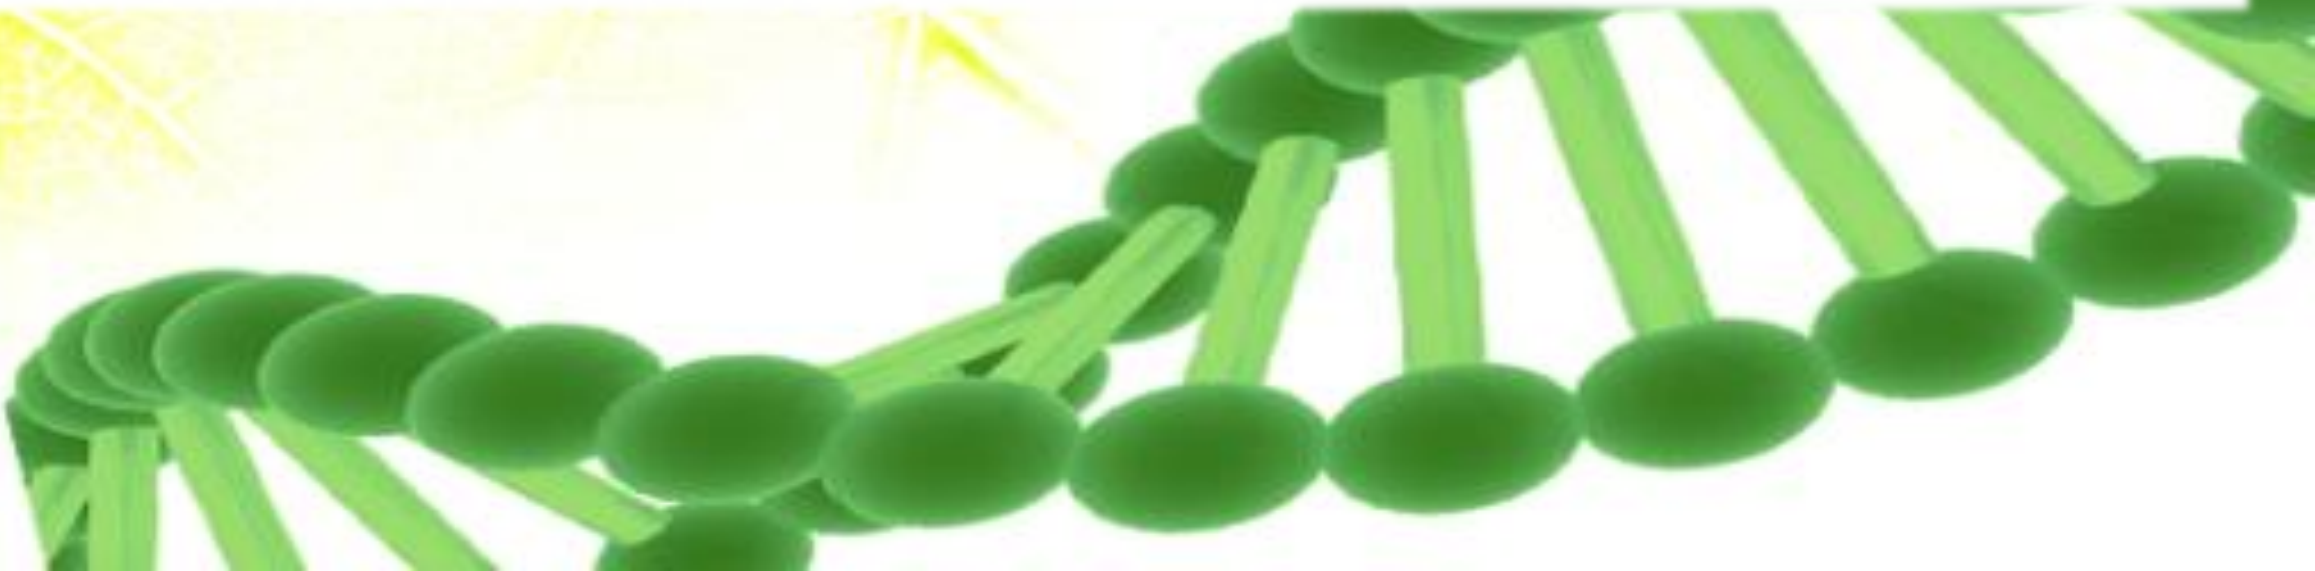

Plant stem cells serve as the origin of plant vitality, as they maintain themselves while providing a steady supply of precursor cells to form differentiated tissues and organs in plants. In some long-lived plants, such as trees, plant stem cells remain active over hundreds or even thousands of years, revealing the exquisite precision in the underlying control of proliferation, self-renewal and differentiation.

Plant Stem Cells

Plant Stem cells are “unprogrammed cells” and “universal cells” that can differentiate into cells with specific functions. Regenerative therapies are used to stimulate healing and might be used in the future to treat various kinds of diseases. Regenerative medicine will result in an extended healthy life span. A fresh apple is a symbol for beautiful skin. Hair greying for example could be shown to result from the fact that the melanocyte stem cells in the hair follicle have died off.

Plant Stem Cells

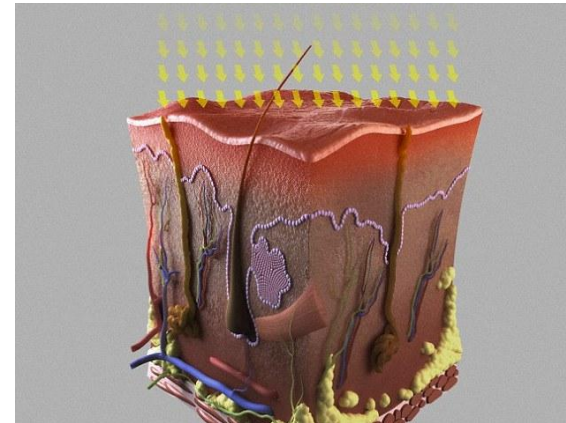

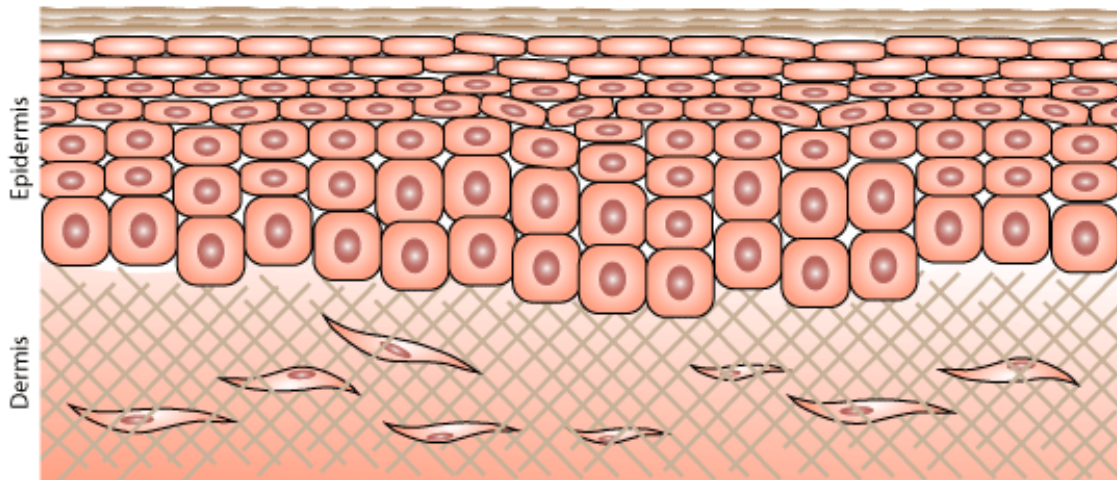

Plant stem cells are characterized by two distinctive properties, which are:

- the ability to create all differentiated cell types and**
- the ability to self-renew such that the number of stem cells is maintained.**

Plant stem cells never undergo aging process but immortally give rise to new specialized and unspecialized cells, and they have the potential to grow into any organ, tissue, or cell in the body. Thus they are totipotent cells equipped with regenerative powers that facilitate plant growth and production of new organs throughout lifetime

Fruit and Plant Cells

Fruits and plants are sources of "universal cells" that can increase the longevity of our skin's stem cells, renew dormant cells, repair damage, and regenerate healthy cells. They also defend against harmful ultraviolet, oxidative, and environmental stresses.

Our team of Scientists & Researchers have developed a novel plant cell culture technology to extract out stem cells from rare plants and fruits and come up with a revolutionary product

KEVA

Keva Triple Stemcell Powder

KEVA

Contains a unique blend of ingredients which helps to prevent the premature ageing of the cells and promotes renewal of body cells.

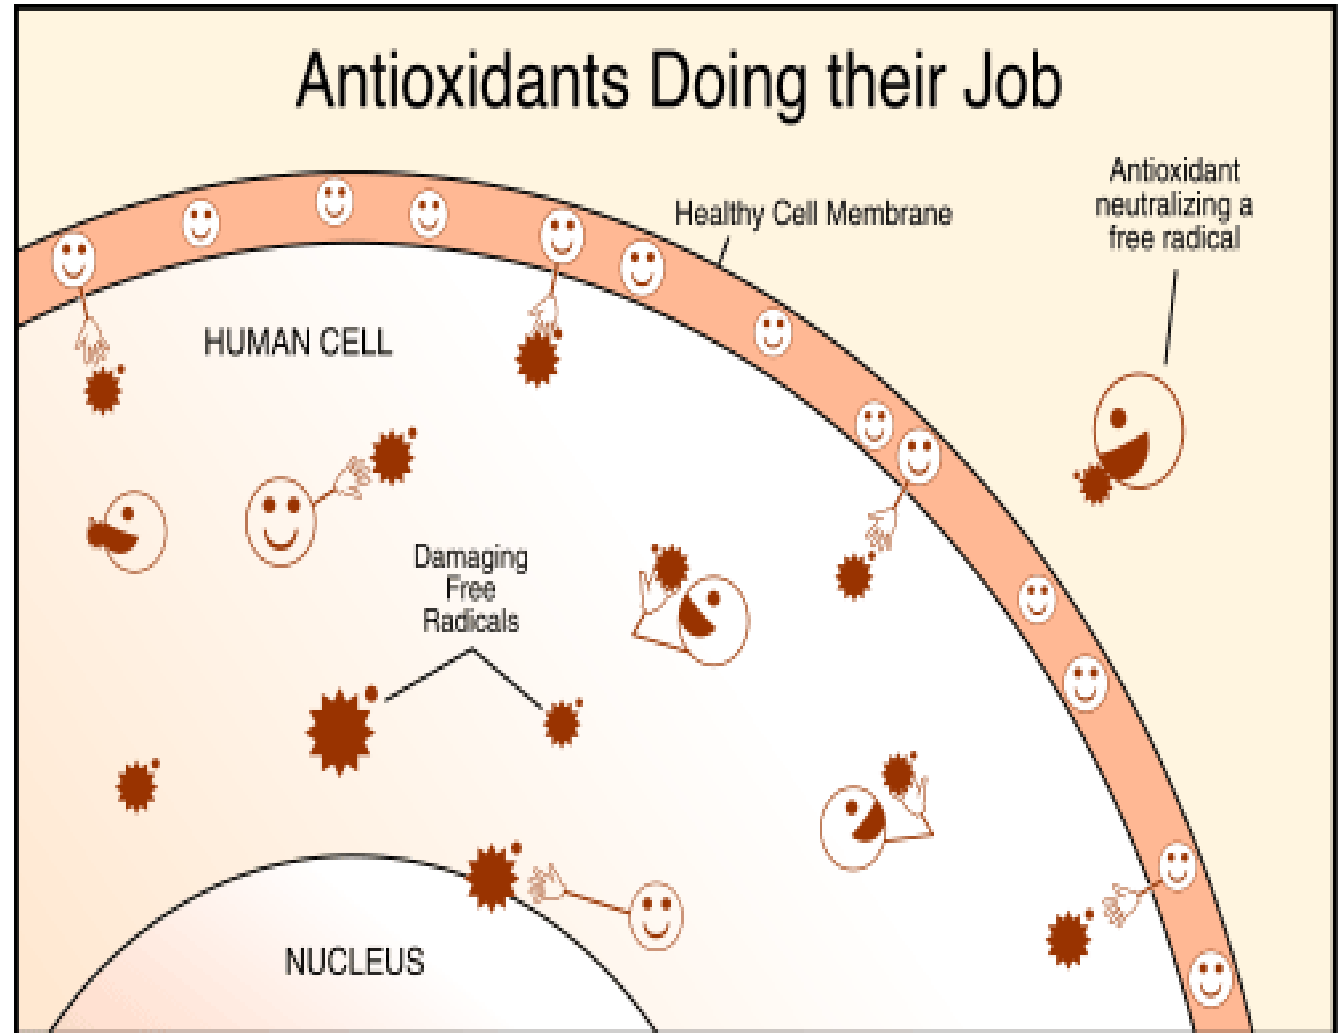

KEVA

Formed by a new approach by combining nature and science through a technique to extract raw materials from plants

The antioxidants present in the product helps to protect the cells from the damage caused by the free radicals and also improves the lifespan of the cells

ORAC VALUE

21117 sum of ORAC of ingredients as per trials

ORAC stands for Oxygen Radical Absorbance Capacity. It's a lab test that attempts to quantify the "total antioxidant capacity" (TAC) of a food by placing a sample of the food in a test tube, along with certain molecules that generate free radical activity and certain other molecules that are vulnerable to oxidation

In Today's world no one is able to provide complete nutrition to the body and thus, Keva Triple Stem Cell Powder helps to fulfil the nutritional requirements of the body throughout all stages of life.

KEVA

UNIQUE FORMULATION

Possessing
Internationally
acclaimed
ingredients

Malus Domestica

Solar Vitis

Acai Berries

Cranberry Fruit Extract

Cordyceps Sinensis

Schizophyllum Commune

Chaste Tree Fruit Extract (Vitex agnus-castus)

Mallus Domestica

**Liposomal
preparation of
apple stem cells
developed by a
novel, plant cell
culture technology
to cultivate de-
differentiated
callus cells from a
rare Swiss apple-
Uttwiler
Spätlauber**

Mallus Domestica

**Stem Cell of apples
Uttwiler Spätlauber can
help in skin cells
regeneration.**

**Apples Uttwiler Spätlauber,
which was first recorded in
the 18th century, came from
Thurgau, in northern
Switzerland. After
harvested it stays fresh for
4-5 months**

Mallus Domestica

- ***The presence of phyto-chemicals and potent antioxidants in apple fights oxidative stress that plays a vital role in preventing cancer and premature ageing of the cells***
- ***Maintains the total cholesterol and triglyceride levels within normal range which is very important for a healthy heart***

Solar Vitis

Makes your skin young and glowing always

The rare Gamay Teinturier Fréaux grape is originated from Burgundy region of France, which contains extremely high level of anthocyanin. . It is rich in antioxidants which helps to protect skin from free radicals generated by UV radiation. Able to protect epithelial stem cells in the skin from ageing and UV radiation.

Acai Berries

Acai berry is the richest known source of potent antioxidants like anthocyanins & Omega 3 Fatty Acids. Acai is also a powerhouse of nutrients and has an almost perfect composition of essential amino acids with an abundance of valuable trace minerals and micronutrients.

Acai berry's antioxidant content is 5 times more than ginkgo, and 33 times more than red wine.

Cranberry Fruit Extract

Cranberry fruit extract helps to prevent urinary tract infection, respiratory disorders, kidney stones, cancer and heart disease. It is also beneficial in preventing stomach disorders and diabetes, as well as gum diseases caused by dental plaque.

Cordyceps Sinensis

Loaded with natural ability to fight free radicals, infections and inflammation, cordyceps are impressive disease-fighting mushrooms that have been used for centuries to reduce symptoms of respiratory disorders, coughs, colds, liver damage and much more. Cordyceps helps to treat sexual dysfunction in men, improves stamina and libido.

Schizophyllum Commune

Possesses unique polysaccharides which are Anti-Cancer and Immuno-stimulating. The specific effect of these polysaccharides is the activation of macrophages and T-lymphocytes, stimulation of interferon, and an enhancement of cell-mediated immune response.

Chaste Tree Fruit Extract (*Vitex agnus-castus*)

KEVA

Contains alkaloids and flavanoids, as well as substances that are precursors of steroidal hormones. These helps to control the symptoms of menopause, menstrual cramps, helps in menstrual disorders.

BENEFITS

Improves body immunity system

Helps to boost the immunity of body against various antigens which cause harmful effects on body

Bacteria

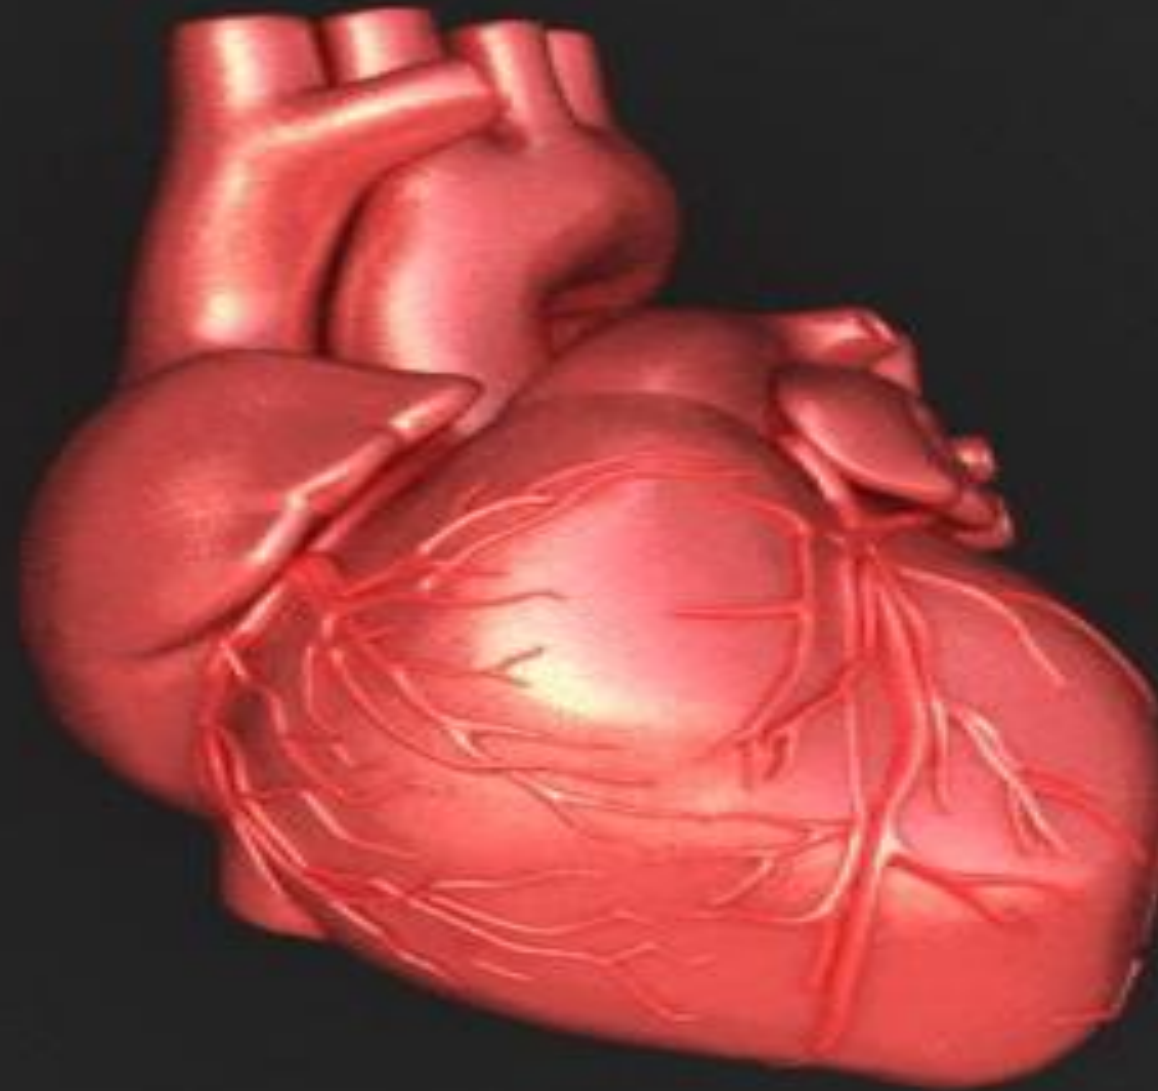

Enhances physical stamina and energy level

The Herbs help to boost the cellular energy production of the cells which helps the body to restore more amount of energy

Promotes Cardiovascular Health

It helps to control the chronic inflammation and oxidative stress in blood vessels which is helpful in preventing the diseases like atherosclerosis, strokes, peripheral artery disease and cardiac arrest etc

Diabetes and related complications

Helps to control the glycemic index of the body which helps to control diabetes and symptoms related to diabetes like diabetic foot, wound healing, and controls the levels of insulin

Improves Neurological Health

Helpful in treating many neurological diseases like Parkinson's disease, Alzheimer's, spinal cord injuries and also helps to improve the condition of paralytic patients

Improves Eye Health

Helps to improve the vision and also helps in degenerative eye disorders like glaucoma

Male Reproductive Health

- Helps to boost the energy level by increasing the blood flow to the organ to stimulate the higher energy
- Improves vitality, libido
- Helps to increase the sperm count which helps to increase fertility in males

Improves Organ Health

- Helps to treat the organ specific ailments like Urinary tract infection
- Strengthens liver
- Improves kidney functions by detoxifying them from harmful toxins

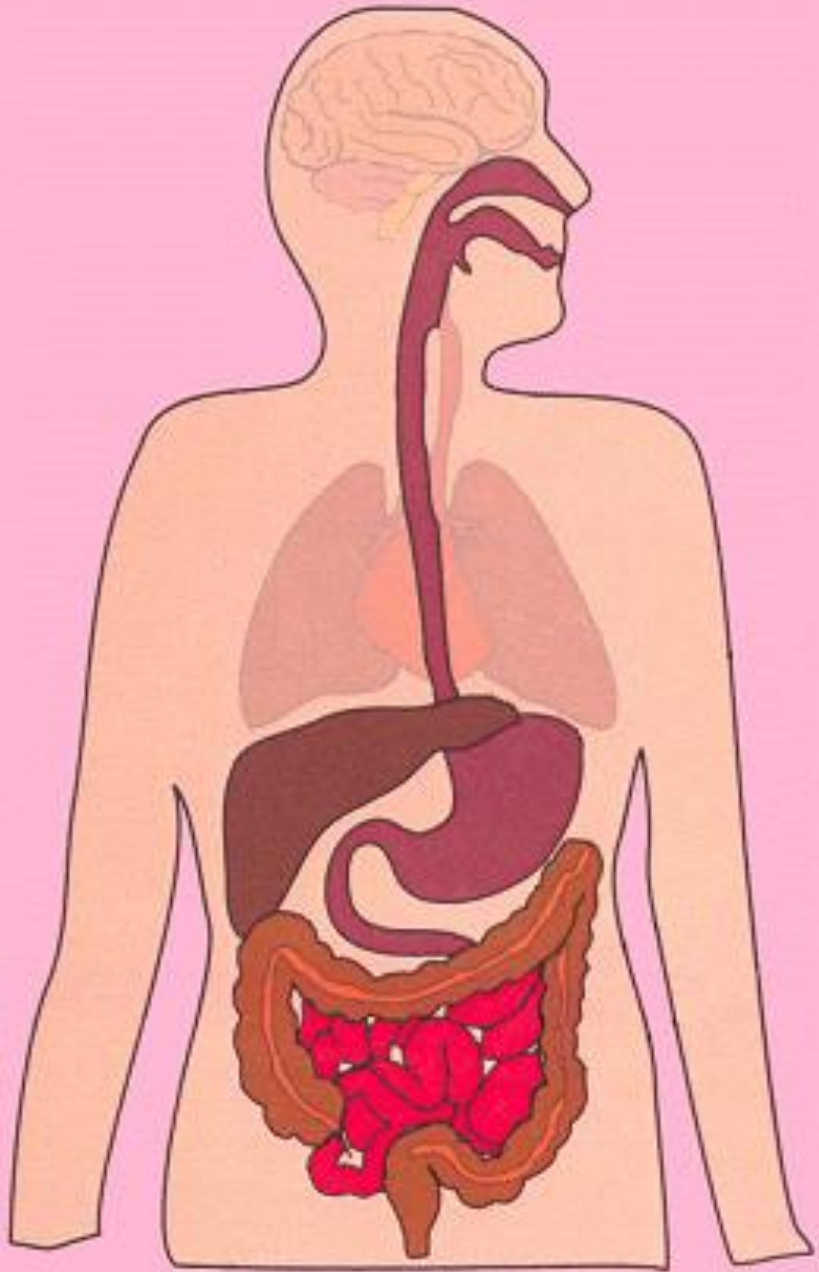

Women Reproductive Health

- Helps to balance the level of hormones in females
- Promotes production of female sex hormones
- Helps to combat with post menopausal symptoms, leucorrhoea, PCOS & PCOD
- Helps to cope up with menstrual related symptoms

Aids in constipation & digestion

- The fiber content helps to loosen the stool faster and prevents from constipation
- Boosts the intestinal flora to boost up the digestion

Weight loss

**Helps in
boosting the
metabolic
rate and
helps to
shed the
extra fat of
body at
faster rate**

Skin problems

- Helps the body fight against free radicals and acts as a good anti-aging agent
- Helps to treat serious skin ailments like psoriasis and eczema

Hair problems

- Promotes hair growth
- Prevents premature graying of the hair
- Reduces the chances of hair loss

Joint problems

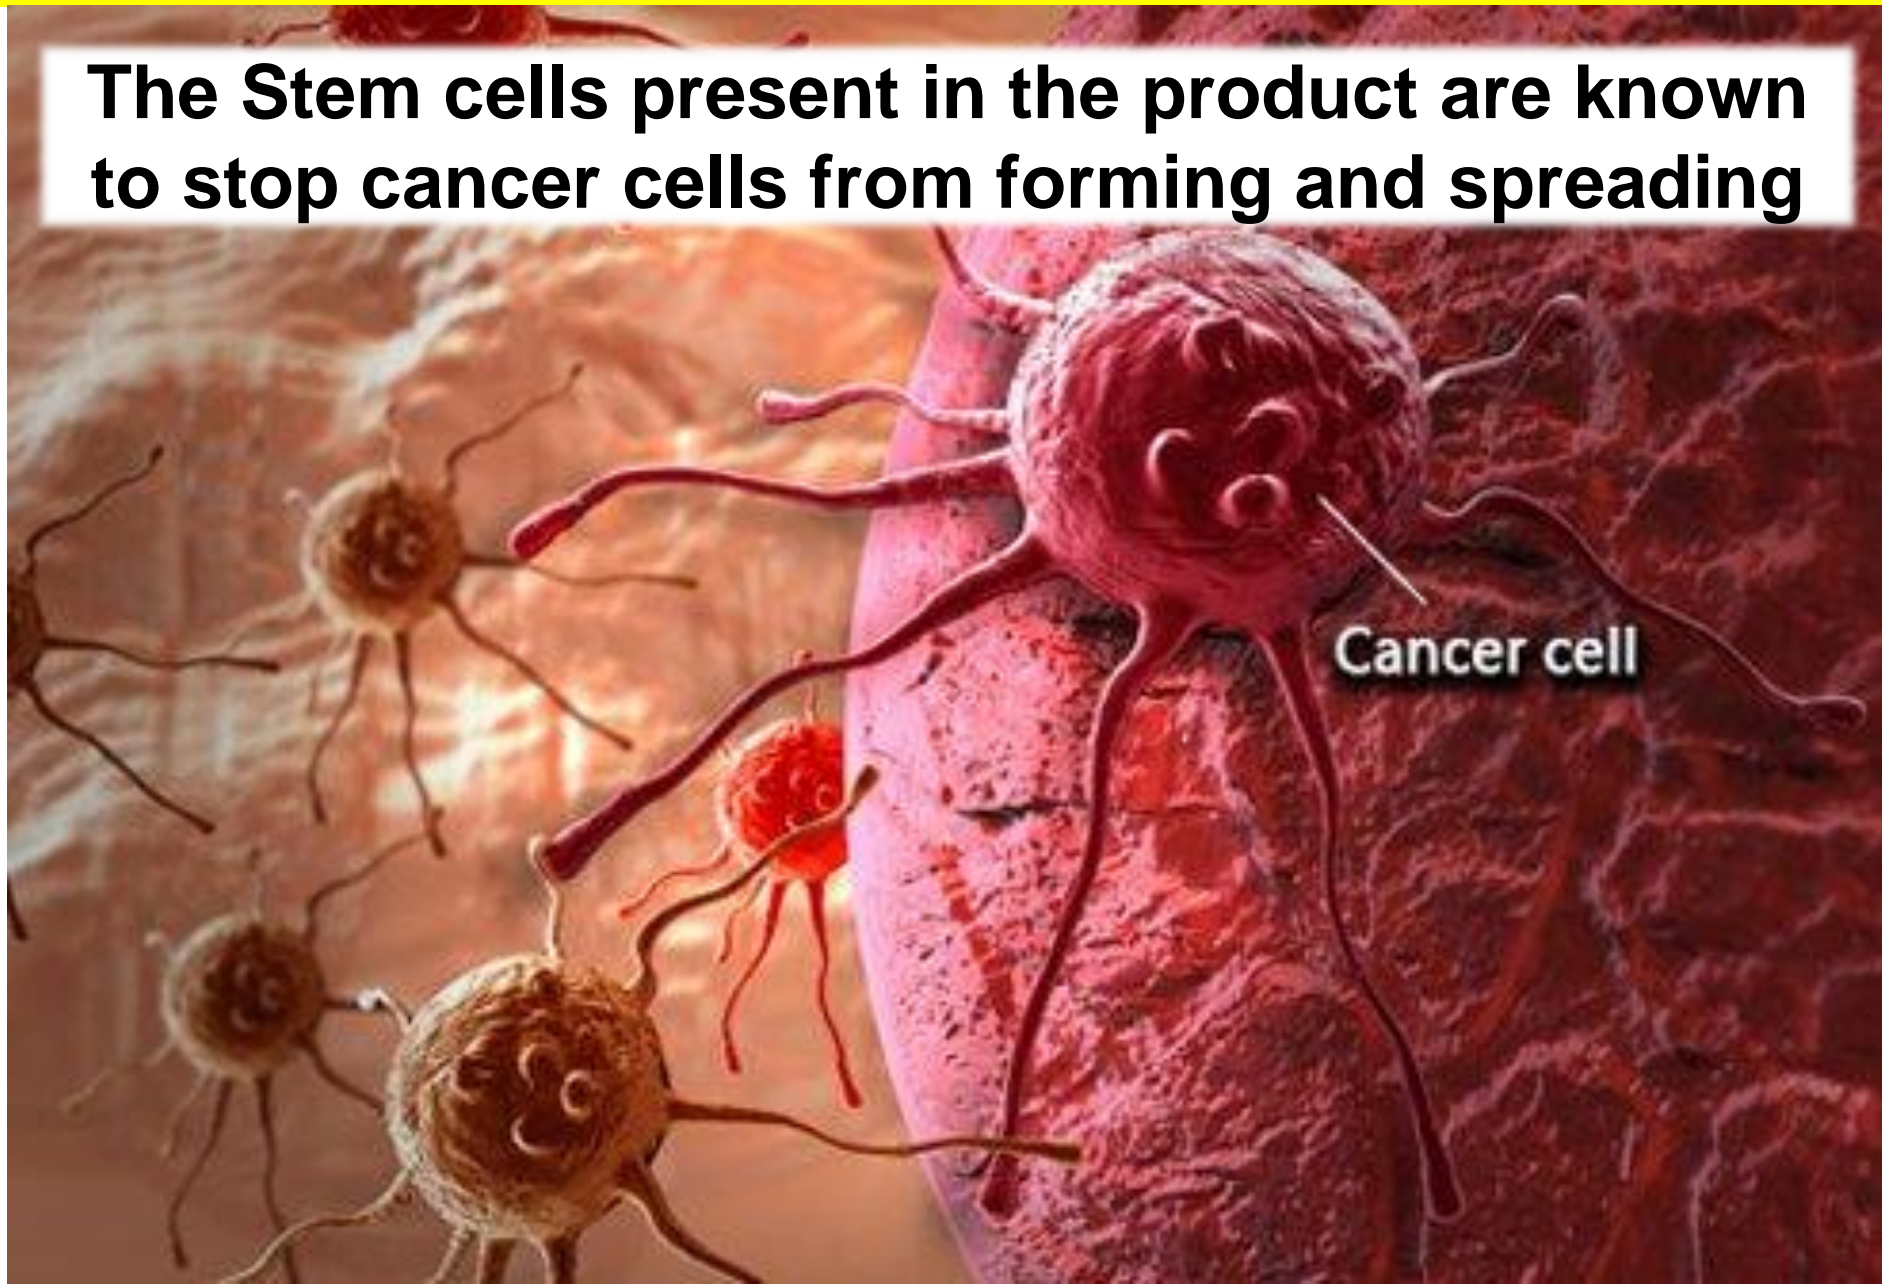

Helps in the growth of the cartilage cells and controls the joints related disorders like osteoarthritis and rheumatic arthritis

Anti-Cancer Effect

The Stem cells present in the product are known to stop cancer cells from forming and spreading

Keva Triple Stemcell Powder

- **Natural Product**
- **Swiss Quality Formula**
- **HALAL and KOSHER Certified**
- **Produced under GMP guidelines**
- **Having more than 100 clinical trials**
- **Processed with Nano Technology**

Dosage

Mix 10 g of powder with water, juice or soup and take with morning meal

For better results use for 6-12 months regularly
