ALOE VERA

Aloe vera has been known for its healing properties for at least 6,000 years. The gel from the plant can treat inflammation and correct skin disorders. Research has a lot to state on its effects on diabetes and weight loss as well.

The plant contains over 75 powerful constituents – these include vitamins, minerals, enzymes, saponins, salicylic and amino acids.

It has excellent anti oxidant properties and supports better digestive, skin, hair, bone, eye and immune health. It may be beneficial in symptoms like poor digestion, cardiovascular problems, respiratory problems, diabetes and immune related symptoms.

NONI

It is known as the “Queen of Health Plants” due to its wide range of applications. It has been used by millions of people worldwide for more than 2000 years with life changing results. It contains potent antioxidants.

Noni has been proven to control the growth of cancer cells, reduce pain resulting from it, can reduce diabetes and its related ailments, can slow down degenerative processes connected with aging and can boost nutrition levels.
