

KEVA

Keva Bone Health

Strong & healthy bones make
a strong & healthy body

Every time you walk, sit or run, you use using
your bones and joints

Without these vital parts of body, you can
neither walk nor sit

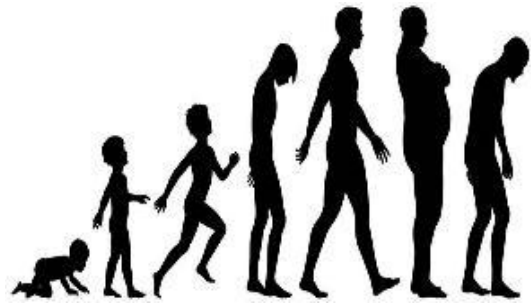

Therefore it is very vital for your good health that you keep your Bones and Joints in good health

Nowadays in every house there is one person suffering from Bone & Joint problems like-

- Pain in knees/ Shoulders/ back
- Gout
- Osteoporosis
- Arthritis
- Strains, Sprains

Increasing age

Not getting proper nutrition

Hereditary

Obesity

Drinking of cold drink/
Coffee in excess

Excessive smoking

Lifestyle

There are many
reasons for such
problems

Hormonal problem

Apart from this-

- In females, during child birth, breastfeeding and after menopause, bones become very fragile
- Strong bones are a must for growing children

KEVA

KEVA BONE HEALTH

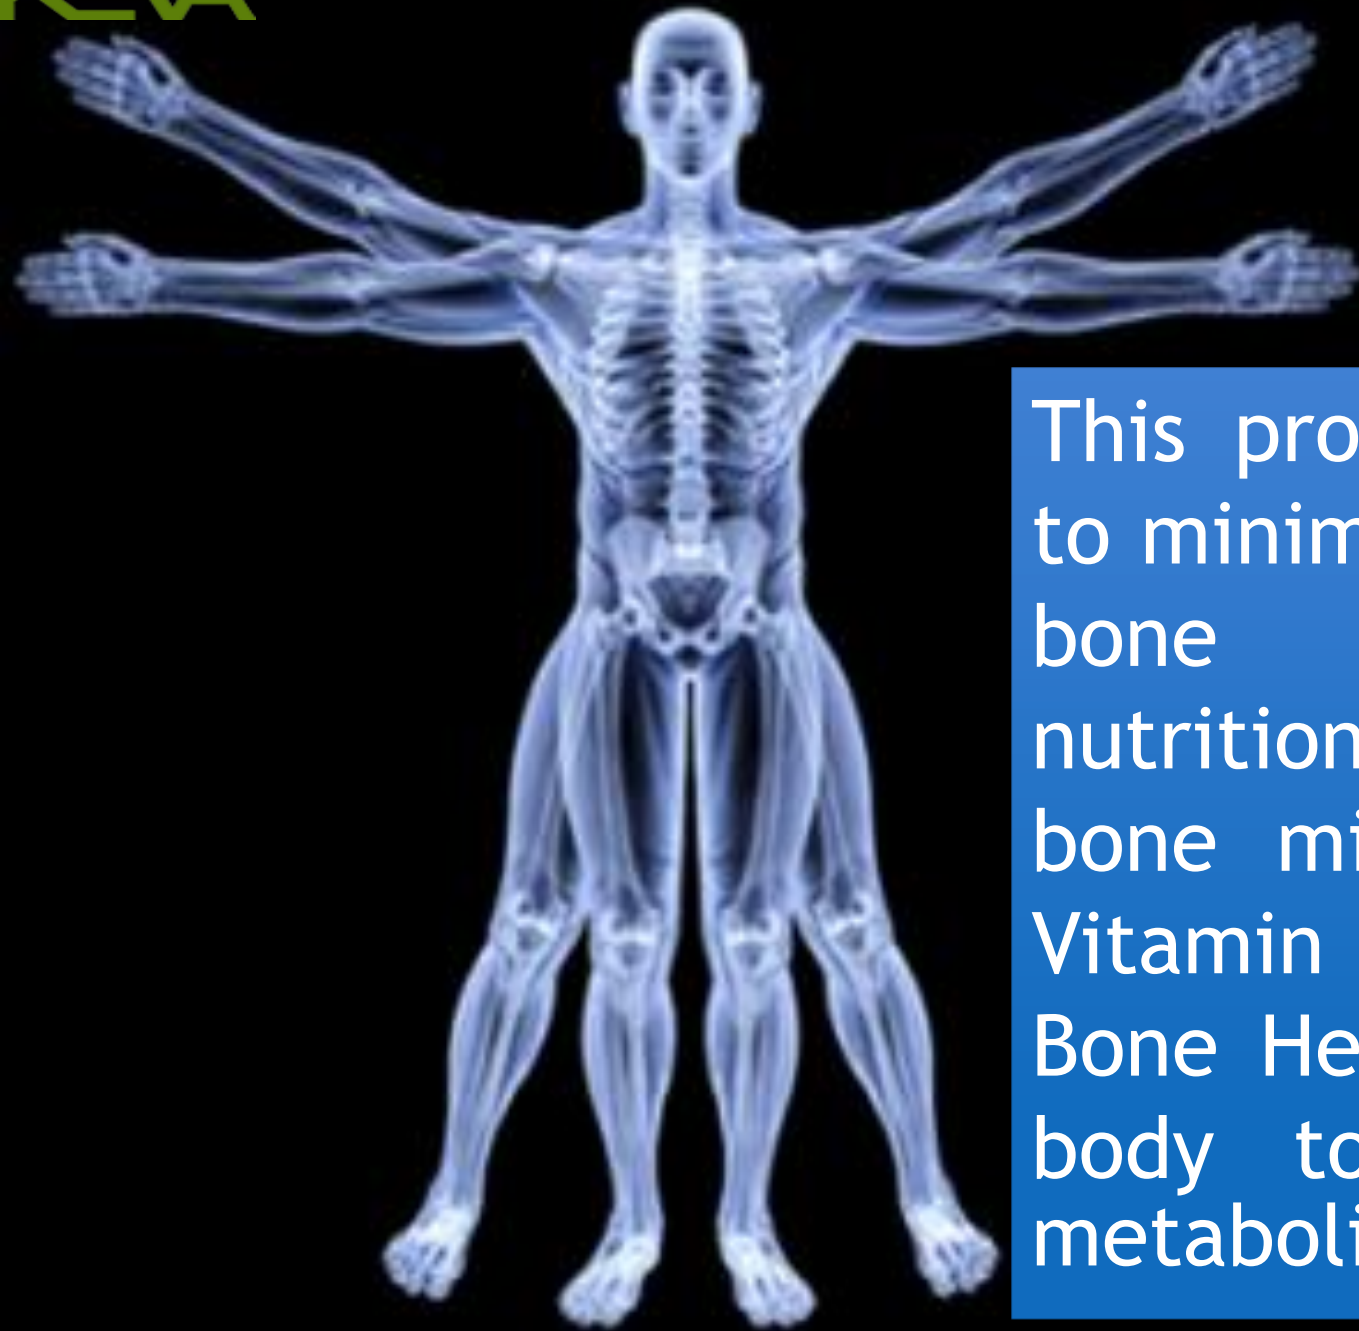

KEVA Bone Health offers the right balance of Calcium to build strong bones & muscles along with Vitamin D3 which helps in better absorption of calcium

Keva Bone Health is a great product for individuals who have -
Increased need for nutrients such as women, children, adolescents and elderly people.

This product is shown to minimize the loss of bone mass and nutritionally support bone mineral density. Vitamin D3 in Keva Bone Health helps the body to absorb and metabolize calcium

Kevala Bone Health is the perfect combination of Calcium & Vitamin D3 that you need for strong bones, strong muscles and nerve activity

Together they not only enhance each other's absorption and utilization in the body but also work in synergy to maintain good health, especially for the bones and teeth.

- Unique combination of Calcium & Vitamin D3 that helps support bone mineral density.
- Vitamin D3 is an essential component in bone health & is required for promoting calcium absorption from the gut
- Calcium helps to strengthen bone and muscle structures. Provides optimum calcium ratio. Help in achieving calcium & Vitamin D3 requirement. No artificial sweeteners, preservatives, colors or flavors added.
- 100% Natural

Makes Bones & Teeth strong

Helpful for healthy bones & muscles

Helpful for problems in the Back & knees

Benefits

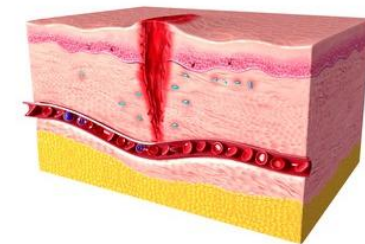

Regulates heartbeat

Helpful in osteoarthritis, arthritis

Helps in proper functioning of the nervous system

Helps in early healing of wounds

HOW KEVA BONE HEALTH IS A GREAT PRODUCT FOR EVERY INDIVIDUAL?

KEVA

1. Increased need for nutrients such as women, children, adolescents, elderly & pregnant women.

2. Inadequate dietary intake.

This product is very effective in Children growth related to optimum height, general body growth and bone development as this product fulfils all the major requirement of kids generally they need for overall development. Calcium deficiency can lead to irritability, jitteriness, tremors and convulsions in newborn babies

- It can also be seen in older infants and preschool children in association with Vitamin D3 deficiency.
- Pregnant and lactating mothers must have adequate amount of calcium and Vitamin D3 in their diets to prevent problems associated with calcium deficiency.
- Artificially fed children are more prone to develop calcium deficiency. The high phosphate content of non-human milk depresses the level of calcium in the blood.

- Though rare in breastfed infants, calcium deficiency can occur in such infants whose mothers are deficient in calcium and Vitamin D3.
- So as to prevent yourself from number of diseases caused by Calcium & Vitamin D3 deficiency, switch to Keva Bone health from now.
- Also this product can be taken by people who are regularly suffering from low mineral density, fragile bone structure & muscular spasm, pain, stiffness in the body like cervical spondylitis etc.

CALCIUM CITRATE MALATE

- ✓ Calcium citrate-malate has been shown to have superior bioavailability compared to other forms of calcium, such as calcium carbonate. Calcium Citrate-Malate is formulated to provide optimal calcium absorption. It is 10% better absorbed than calcium carbonate. An essential nutrient to support healthy musculoskeletal and connective tissues, calcium also plays a vital role in supporting healthy cardiovascular, nervous, and endocrine/hormonal system function.
- ✓ Calcium citrate malate (CCM) is a water-soluble calcium supplement.
- ✓ It is the calcium salt of citric acid and malic acid. Calcium citrate malate's bioavailability stems from its water solubility and its method of dissolution. When dissolved, it releases calcium ions and a calcium citrate complex.

CALCIUM CITRATE MALATE

- ✓ Calcium ions are absorbed directly into intestinal cells, and the citrate complex enters the body through paracellular absorption.
- ✓ CCM has been shown to facilitate calcium retention and bone accrual in children and adolescents.
- ✓ In adults, it effectively promotes the consolidation and maintenance of bone mass.
- ✓ In conjunction with vitamin D, CCM also decreases bone fracture risk in the elderly, slows the rate of bone loss in old age, and is of benefit to the health and well-being of postmenopausal women. CCM is exceptional in that it confers many unique benefits that go beyond bone health. CCM is also recognized as a calcium source that does not increase the risk of kidney stones, and in fact it protects against stone-forming potential.

VITAMIN D3

- ✓ Vitamin D3 is an essential component in bone health.
- ✓ It helps ensure that the body absorbs and retains calcium, which is critical for building strong, healthy bones.

Dosage:

- Take 1 tablet of Keva Bone Health twice a day Morning & Evening after meal for better results.
- We recommend taking this product for 6 months regularly.
- And keep yourself away from Calcium & Vitamin D3 deficiency forever.
- Please note if one is taking Iron supplementation then Keva Bone Health should be taken after 2 hrs gap as Iron will not get absorbed in the body if you take both products at one time.

Keva Bone Health comes in packaging of 60 tablets:

Vitamin D3 - 1000 I.U.

Calcium Citrate Malate (total 1250mg)

The logo consists of the word "KEVA" in a stylized, blocky font. The letters are green, and the "E" is formed by two horizontal bars with a gap in the middle.
