**Common Cold**

**Ulcer**

# COMMON DISEASES – caused by wrong drinking water

KEVA

Body Odour

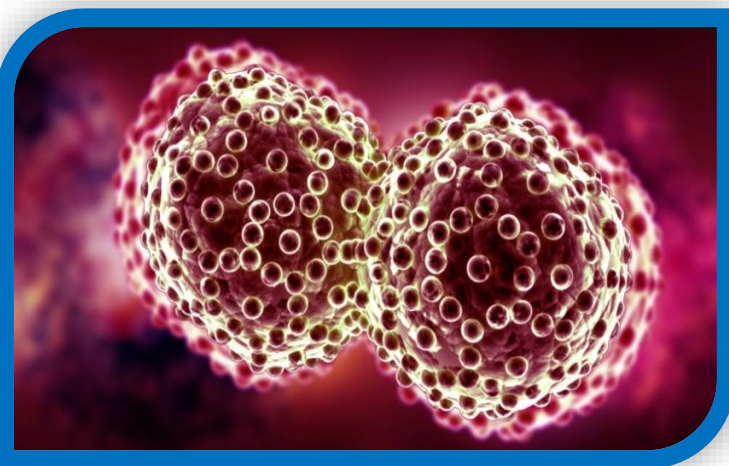

Dehydration

Liver Disease

Lung Disease

Cancer

It has been found that  
Ionized Hydrogenated water  
can prevent and cure almost 170  
diseases.

**Alkaline ionized water is absorbed into the body, when it is drunk. The absorbed alkaline ionized water contains rich active hydrogen. This active hydrogen unites the active oxygen in the body and changes into water, helping eliminate the active oxygen.**

**Alkaline ionized water is healthy water.**

# Now Question???

Are You Drinking the right water ??

How you can identify right water?

KEVA

Uses ?

## ELECTROLYSIS

ACIDIC

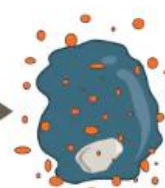

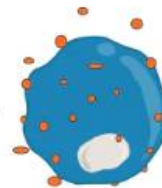

ALKALINE

# Antioxidant/Anti-Aging

KEVA

The **“Rusting”** process  
or the breakdown  
of the tissue.

**Oxidation = Sickness = Aging**

Normal Cell

Free Radicals  
Attacking Cell

Cell With  
Oxidative Stress

**How to get more  
ANTIOXIDANTS**

**1 Glass of KEVA Water =**

**30 Cups of Green Tea**

**5 kg Broccoli**

**1 kg Blueberries**

# 1.5 LITRES OF HYDROGEN-RICH WATER IS EQUAL TO THE FOLLOWING VEGETABLES OR FRUITS ANTIOXIDANT VALUE...

**Banana**

**756**

**Carrot**

**38**

**Apple**

**516**

**Cabbage**

**45**

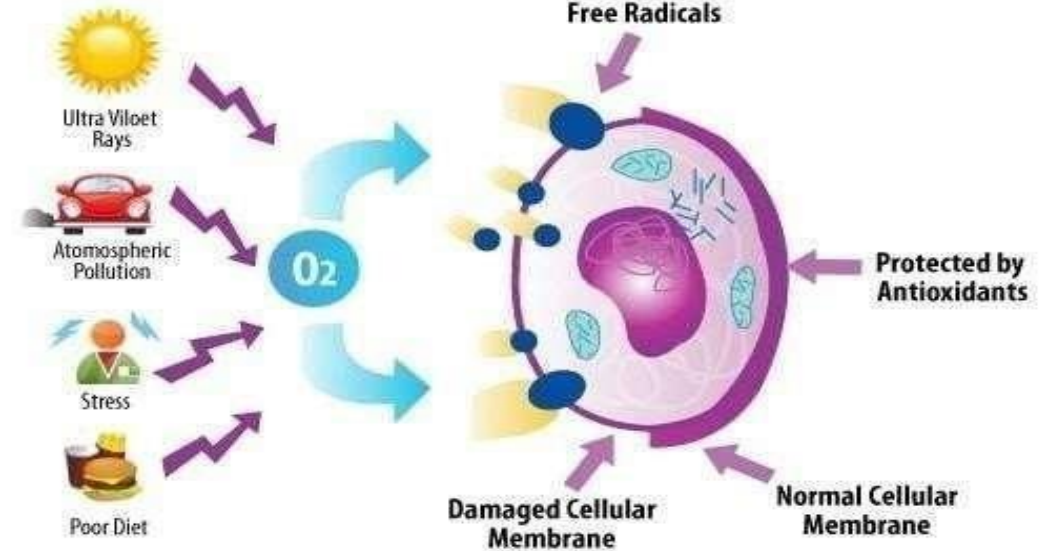

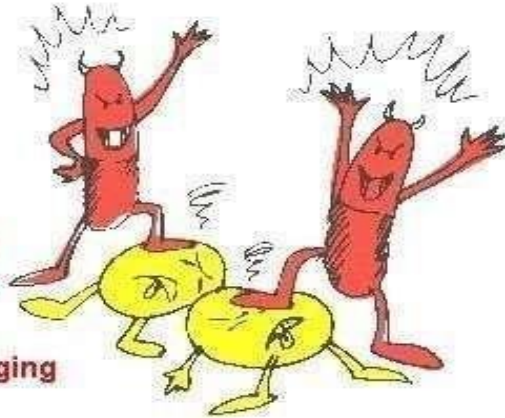

Comparison of the antioxidant value is base on  $\beta$ - carotene content in fruits and vegetables

# Concept of free radicals

## What are Free Radicals?

Free radicals are like robbers which are deficient in energy

Free radicals attack and snatch an electron from other cells to satisfy themselves... thus damaging cells membrane.

Your body is a complex and highly sophisticated machine, so it needs a constant fine tuning in stress filled environments and ever rising pollution.

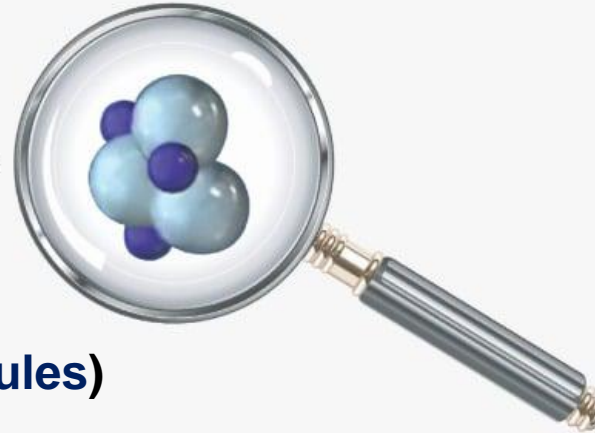

# Micro Clustered

**Micro-Cluster**

**Ionized H<sub>2</sub>O**

**Micro-Cluster (3 - 6 Molecules)**

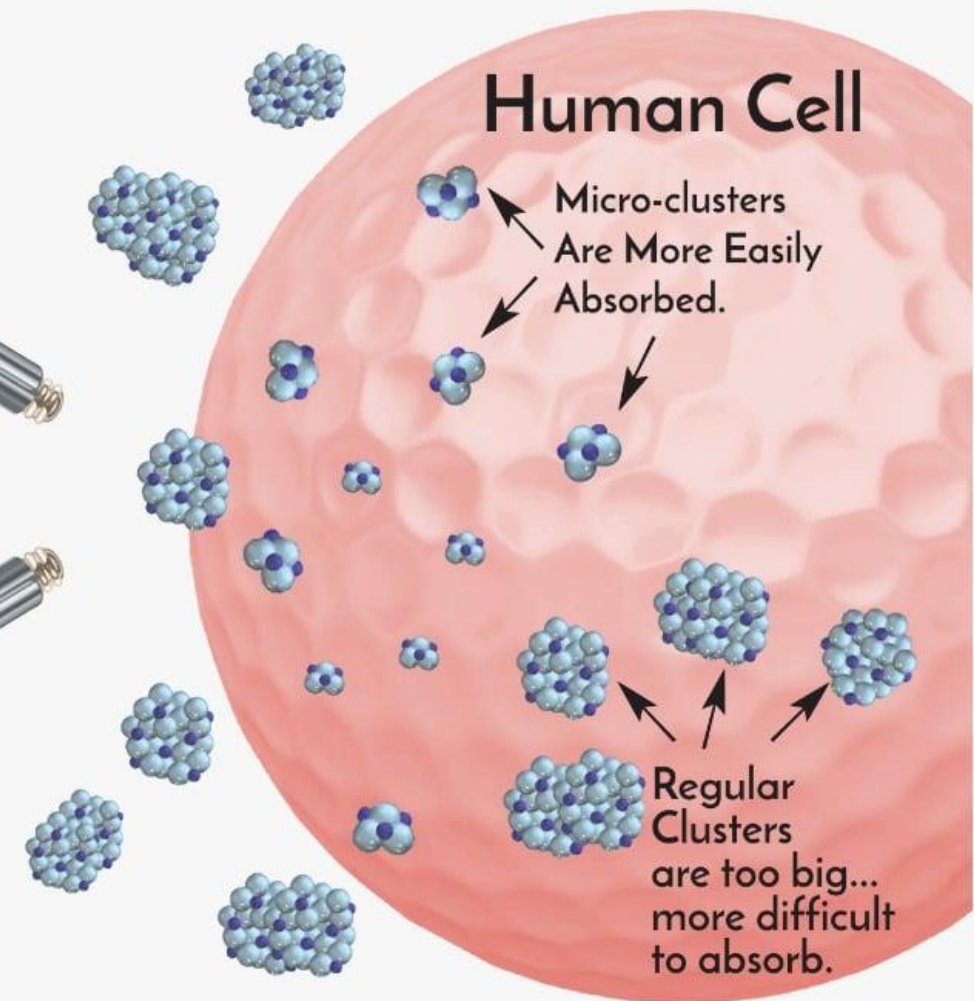

Micro-clusters allow greater penetration and easier absorption

**Regular Cluster**

**Regular H<sub>2</sub>O Cluster (15 - 30 Molecules)**

Larger clusters limit absorption by the body

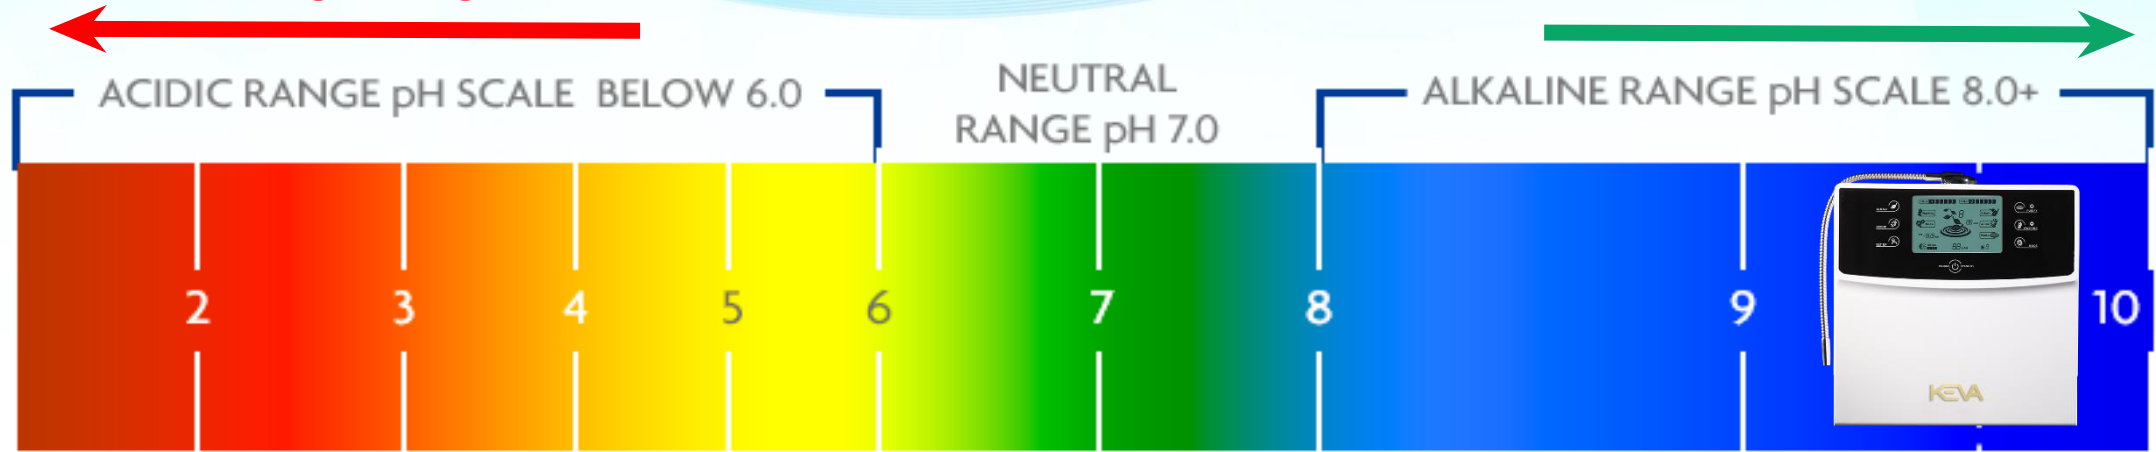

# Our known products according to pH chart

**ACIDIC**

HOW ACIDIC IS YOUR FOOD?

**ALKALINE**

**Fight and beat cancer!!!**

**KEVA**

## The Root Cause of Cancer

**Dr. Otto Heinrich Warburg**  
**In 1923 Discovered cause of**  
**Cancer.**

**In 1931 Nobel Prize Winner**

***"All forms of **cancer** have two basic conditions: **acidosis** and **hypoxia** (lack of oxygen)"***

***"Cancerous tissues are **acidic**, whereas **healthy** tissues are **alkaline**"***

***"Deprive a cell 35% of its oxygen for 48 hours and it may become cancerous."***

***Disease can not live in Alkaline body!***

- **Keva Next Generation Water ionizer produces alkaline ionized water and acidic ionized water and has a front sliding door system.**
- **Water that flows into the ionizer is delivered to the filter.**
- **An enhanced two-step filter system provides tastier and cleaner water.**
- **Purified water flows into the electrolytic cell. The electrolytic cell contains nine plates, which make electrolysis more stable, keep pH at a certain level and divide into alkaline ionized water and acidic ionized water.**
- **Keva Alkaline water ionizer features a front sliding door system; the connecting groove and protrusion prevent the door from easily opening during movement.**
- **The sliding system allows users to quickly and easily change the filters.**
- **Also, the connector at the back of the product makes it possible to easily connect the faucet at the top of a sink.**
- **Simple installation enables users to use the ionizer more conveniently.**
- **Keva Next Generation Water ionizer can be easily installed at any place, making it possible for you to easily provide healthy water for your family.**

## KEVA WATER IONIZER

### 9 Plates Model

### K9 - PLUS (9 Plates)

**MADE IN SOUTH KOREA**

28 Years Experience Jinnys Co. Ltd. **South Korea** is supplying to many countries from the last 28 years!

- ✓ Automatic filter indication system
- ✓ UV Light technology
- ✓ Convenient voice automated
- ✓ Amazing 2 step dual filtration system
- ✓ Touch sensor, LCD display
- ✓ Incredible pH range from 2.5 to 11.5 (+/- 0.5)
- ✓ Fully Convertible
- ✓ Automatic cleaning System
- ✓ ORP: upto -850 mv,
- ✓ Hydrogen Levels: upto 1800 ppb
- ✓ 400 programmable pH and ORP levels
- ✓ Filters: Dual (UF & MCF)
- ✓ 100% stainless steel Zabara hose
- ✓ Dimensions : 35.0 x 35.0 x 15.0 cm
- ✓ Machine Weight - 5.5 Kg(net)/ 7.3Kg (Gross)
- ✓ It has 9 Platinum Coated Titanium Electrode Plates (Patented)
- ✓ Plate Surface Area- 9949 sq. mm

# SALIENT FEATURES

The logo for KEVA, featuring the letters 'KEVA' in a stylized, gold-colored font with a slight shadow effect, set against a dark blue background within a rounded square frame.

## KEVA WATER IONIZER

### 9 Plates Model

1. It has one-touch sensing ON/OFF system for selecting each function.
2. It has 9 sheets of Platinum coated Titanium electrode plates (patented)
3. It can produce 9 levels of water - four alkaline wales, four acidic water, one purified water.
4. Big LCD screen (Different Color LCD display).
5. You can select the levels by using our convenient Touch Screen system
6. There is a PH level (acid end alkaline concentration) display on the LCD Screen.
7. The pH of the water will be displayed on screen shown by 7 different colors (Red is most acidic and purple is most alkaline)
8. It has self-diagnosis and error display function in the system.

# SALIENT FEATURES

The logo for KEVA, featuring the letters 'KEVA' in a stylized, gold-colored font with a slight shadow effect, set against a dark blue background within a rounded square frame.

## KEVA WATER IONIZER

### 9 Plates Model

9. There are 2 big capacity filters in the system.
10. There is wireless filter sensing function in the system to check the certified parts and to sense the filter life.
11. It has a function to see the actual amount of serviced water by the filter lie display
12. It has voice message function for each mode & ON/OFF unction as well in the system.
13. Outlet water amount per minute (min) shall display by liter (ℓ)
14. It has SMPS power control system.
15. It has an auto- clean feature that drains and cleans the unit after each use
16. The automatic cleaning cycle ensures better sanitation and a well-maintained unit
17. Convenient front door sliding for easy filter access, (patented)

## **KEVA WATER IONIZER**

### **9 Plates Model**

## **HOW DOES KEVA WATER IONIZER WORK?**

- ✓ **KEVA Alkaline Ionizer can be directly connected to a diverter valve at the end of your faucet.**
- ✓ **Connecting directly to your faucet takes about 10-15 minutes and enables your water ionizer to use a two step process.**
- ✓ **The first task is to help filter out harmful components of the water with our built-in dual filter system, which removes chlorine, trihalomethanes, phenols, sediment, odor, taste and organic waste.**
- ✓ **KEVA Water Ionizer achieves this by using multi-stage filters. Then the filtered water passes into a patented chamber equipped with platinum-coated titanium plates.**
- ✓ **Next, an electrical charge is introduced into this water. This is where the electrolysis takes place.**

# KEVA WATER IONIZER

## 9 Plates Model

### HOW DOES KEVA WATER IONIZER WORK?

- ✓ The water is separated into two streams (acid and Alkaline) of Ionized water. The acid water (oxidized) makes up about 30% of the water and the Ionized Alkaline Water 70%.
- ✓ The reduced Ionized Alkaline Water comes out of the faucet, which you use for drinking or cooking.
- ✓ The acid (oxidized) water comes out of a separate hose leading into the sink.
- ✓ The oxidation potential of the acid water makes it a good sterilizing agent. Ideal for washing your hands, cleaning food or kitchen utensils, and treating minor wounds and eczema.
- ✓ Cations, positively charged ions gather at the negative electrode to create Ionized Alkaline Water, which concentrates available Alkaline minerals, such as calcium, magnesium and potassium from the source water.

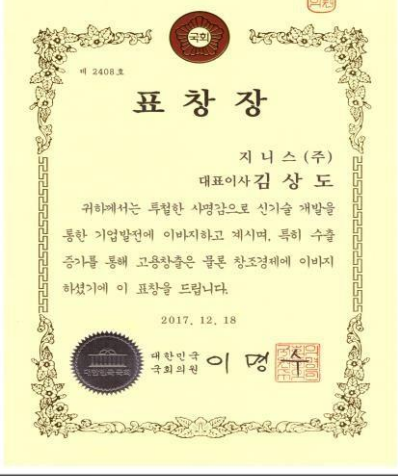

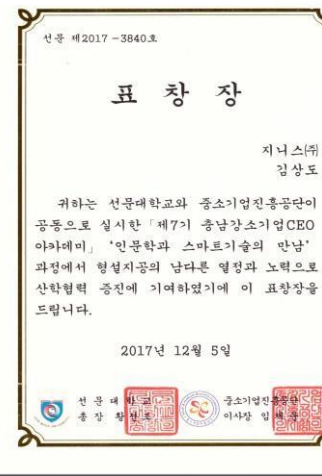

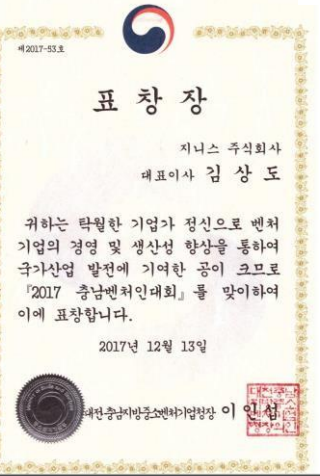

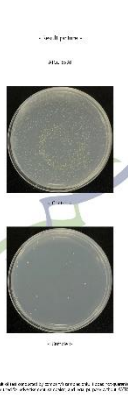

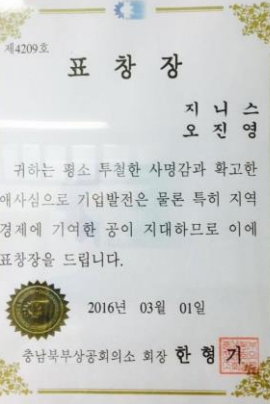

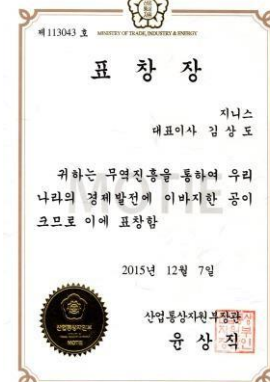

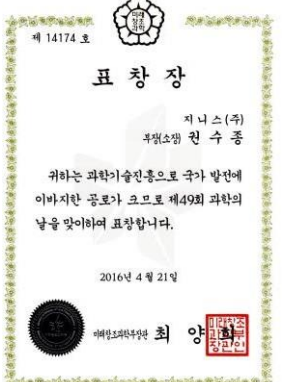

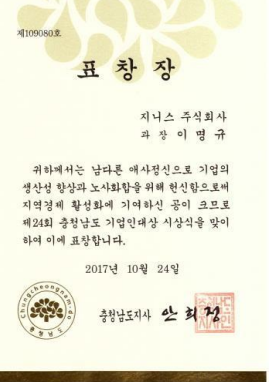

## KEVA WATER IONIZER

**9 Plates Model**

### HOW DOES KEVA WATER IONIZER WORK?

- ✓ **Anions, negatively charged ions gather at the positive electrode to make acid or oxidized water, which concentrates acid minerals such as nitrates, sulfides, chlorides, and fluorides from the source water. Remember in chemistry class, opposites attract. A range of pH settings from neutral to very Alkaline or very acid is available at the touch of a button.**
- ✓ **The electrodes are cleaned in an automatic cleaning cycle or you can also run a manual cleaning cycle. The electrolysis process breaks the molecular bonding of water molecules and restructures the water clusters from usual groups of 12 or so down to about 5 or 6 molecules per water cluster. "Clustered" water is typically characterized by smaller groups of molecules, lower surface tensions and thus can more easily penetrate the cellular membrane. This clean healthy, Alkaline Ionized Water is drawn for drinking and cooking through the main stainless steel spout.**

# FAQ

**Q: How do I know when the filter needs replacing ?**

A: An LCD or counter indicator on the front panel gives an indication of remaining filter life. Generally the 1st filter will last for about 6 months, the 2nd filter for about 12 months (when 2.5 gallons of water is produced per day), but this depends on the source of water and the amount of use

# FAQ

## **Q: How much water should I drink and at what level?**

A: At a minimum, you should drink half your body weight in ounces per day. For example, a person weighing 100 pounds should drink 50 ounces. You should start slow at strength Level 1 (one), drinking 1-3 glasses per day for the first week. You may increase the number of glasses per day during the first week if you do not notice any side effects. If you do not feel any flu-like symptoms at the end of the first week, move up to strength Level 2 (two).

On strength Level 2 (two), drink 1-3 glasses per day for the first week. You may increase the number of glasses per day during the first week if you're feeling good. On average, two to three weeks per level.

# FAQ

**Q. Should I take medication or supplements with ionized Alkaline Water?**

A: You should not drink Ionized Alkaline Water 45 minutes to 1 hour before or after taking medication or supplements. Use purified water or another liquid or water source

**Q: How long does Ionized Alkaline Water stay Ionized?**

A: The Antioxidant (hydroxyl ions] will last approximately 18-24 hours. The Higher pH (Alkaline properties) will last approximately 1-2 weeks. The smaller molecule cluster size will last approximately 1-3 months.

## FAQ

### **Q. What should I expect from drinking Ionized Alkaline Water?**

A. This will initially depend on what level of strength you begin drinking Ionized Alkaline Water. Ionized Water provides your body with lots of oxygen, which is why it gives us energy. Ionized Water is much smoother tasting than conventional water. It makes better coffee, tea, juice, etc. Ionized Alkaline Water is wonderful to cook with because it helps hydrate the food and bring out its flavor. However, other changes in your body will be much more subtle. If you have accumulated acid waste in your system, it probably will take years for you to get into that condition and it will take some time to reverse it. As the body is slowly brought into pH balance by drinking Ionized Water, it will naturally begin to function more efficiently and problems will begin to correct themselves.
